

ENHANCE GREEN MEDIA AND INFORMATION LITERACY (GREEN MIL)

- 1 Raise awareness of the **importance of checking facts** related to environmental sustainability and paying attention to information sources.
- 2 Provide young people with the **tools and resources needed to learn** how to check sources of information, spot disinformation and spread information on the climate emergency in a responsible way.
- 3 Encourage young people to get informed on the **latest news, facts and research** about the climate emergency and what can be done at different levels.

EMPOWER YOUNG PEOPLE AS GREEN CITIZENS

- 4 Empower young people to observe the **consequences of climate change** in their immediate environment and to understand the importance of environmental sustainability.
- 5 Support young people in finding ways of **reducing their ecological impact** and encourage them to take action and spread the word.
- 6 Organise and co-organise **training activities, awareness-raising events, and information sessions** with young people to promote environmental sustainability.

SUPPORT YOUTH INFORMATION WORKERS' LIFELONG LEARNING

- 7 **Stay informed about new forms of youth engagement**, youth-led movements and campaigns on climate action at different levels.
- 8 **Keep track of policies** and latest developments related to environmental sustainability and protection to better understand the context.
- 9 **Anticipate future youth needs** in view of the societal and financial changes linked to the climate emergency in order to anticipate timely answers.

DEVELOP AN ORGANISATIONAL GREEN STRATEGY

- 10 Measure your **organisational carbon footprint** and develop concrete actions to reduce it as part of a green strategy.
- 11 Introduce **green practices and eco-friendly policies** in everyday activities and office management, and therefore act as a role model inspiring young users by reducing your own ecological impact.
- 12 **Cooperate** with relevant public authorities, schools, civil society organisations, and other key stakeholders in the field of environmental sustainability.
